

# Órbita Educativa

ASK(Andrés Santiago Keyner)

October 27, 2023

## 1 Introduction

Órbita Educativa is a system for the educative community that loves share their own knowledge; developing methodologies of friendly learning for their followers. Allowing to generate learning paths for whoever wants to expand their knowledge.

we are in orbit with knowledge!

## 2 Teaching Community

### 2.1 Teachers and Professors

They can present structured topics for their students providing information for the development of activities

### 2.2 Autodidacts

People that mastering a topic and they want to share their knowledge

### 2.3 Content Creators

Individuals that use digital platforms to upload educational content have diverse goals and contribute to rich a learning community.

## 3 People learning

All "Orbitnauts," (students, workers, explorers, heads of households, or anyone else interested in delving into knowledge) can access a wide range of resources. if you're a student seeking educational information, a worker looking for practical solutions, or an explorer on a quest for intellectual adventures, there's something here for everyone. Knowledge is readily available to all, and "Orbitnauts" can harness it to enrich their lives and achieve their goals.
